

RS232 - RS485 Converter

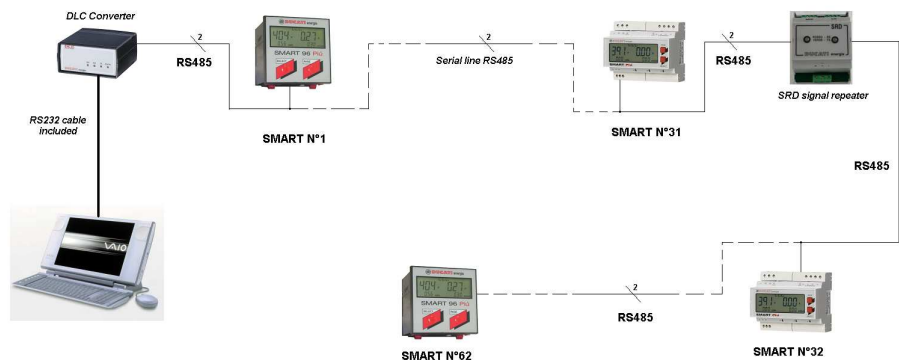

for networks of **DUCATI** analysers

D L C

Part Code – 468 00 1017

- Suitable for use in **DUCATI** instrument networks, featuring RS485 interface, for connection to the data collecting PC.
- No set-up required for user software
- Can be used with both the MODBUS-RTU or ASCII **Ducati** protocol
- RS485 line with galvanic insulation for easy management of in-field instruments
- Suppression of disturbance transients coming from the RS485 serial line for both converter and PC protection
- Easy to use
- *Half-duplex* mode for 2-wire bi-directional data flow management
- 9600bps standard baud rate
- Built-in line terminator
- Automatic management of direction switchover timing thanks to autobaud automatic identification
- Can be used with SRD "Signal Repeaters" (part code **468 00 1021**) for networks featuring many instruments
- RS232 serial PC cable included
- Power supply: 230Vca
